This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

In this volume, the fifth, the Editors have not been able to print much more than the Marriage Registers of St. Thomas', Salisbury. As was to be expected from the importance of the parish, and the fact that the Registers are complete from the year 1570, the entries are very numerous. Three Marriages of an earlier date have been found mentioned in a paper roll of "Chrystenings" and Accounts for the year 1560. The earliest volume, which covers the period from 1570 to 1653, is partly a transcription from a still earlier book, as will be seen from an entry in 1592—"In this year of our Lord God 1592 are no weddings found in the olde Register booke," and again, from another entry in 1598—"From the 21st of November 1598 unto the 7th of Maye Anno D'm 1599 are noe weddinges founde registred in the old booke." When the transcription ended is not shown, but it was probably soon after the last-named date. These Registers are in very good condition throughout.

The Baverstock Registers begin at a slightly earlier date—1559—and they too are complete. But those of Norton, which begin in 1663, are faulty; the second volume, covering the period from 1735 to 1749, is wanting. As the late Canon Jackson searched for it without success, there is probably little hope of its being found now. The remaining contents of the volume are some early Marriages at Colerne, on loose sheets, which were only discovered while Volume IV was passing through its last stages in the press, and was so far finished that it was not possible to include them. They cover the periods between 1560 and 1575, and 1640 and 1652.

The Editors desire to express their thanks to the clergy of the different parishes for their kindness in giving permission for making and publishing these transcripts: to the Rev. C. V. Goddard, of Baverstock, the Rev. H. L. Warneford, of Norton,

(who in addition transcribed their own Marriage Registers) and the Rev. S. Forster-Brown, now of Charlton, near Pewsey, who commenced the transcription of the Marriage Register of St. Thomas, Salisbury, which was completed by the Rev. Edmund Nevill.

The Editors will gratefully welcome further assistance of this nature; and they ask the clergy of the County to give them this essential help, without which it is impossible to carry on the work. Steady progress is being made: all the material for Volume VI is in hand and ready for the printer, but a glance at the map will show how much there is still to do.

It is again desirable to point out that these transcripts must not be considered as "evidence" in the legal sense of the word. They show where such "evidence" may be obtained, if required, on application to the parson of the parish to which the register belongs.

Marriages at Salisbury

(Parish of St. Thomas),

1570 to 1812.

NOTE.—The Registers of this Parish are complete from the year 1570. They are in excellent condition, and the writing is extremely good and clear throughout; evidently great care has been bestowed upon them from 1570 down to the present time. Although the earliest existing Register begins in 1570, there is a paper roll of "Chrystenings" and Accounts dated 1560, in which there are references to three Marriages.

Volume I is of paper, 16 in. by 11 in., bound in calf. It contains entries of Baptism, Marriage and Burial, from 1570 to September 1653.

Volume II is of parchment, bound in calf, as are all the others down to the end of 1812. It measures 16½ in. by 11 in., and contains the entries from October 1653 to March 1740-1. In the years 1699 and 1700, we meet with the unusual description of "labourer" applied to the bride.

Volume III measures 18 in. by 12 in., and begins in April 1741. The Marriage entries end on 25 March 1754, but other entries continue to the end of 1812.

Volume IV measures 16 in. by 11 in., contains 122 pages, of which 51 only are used. The entries, Marriages only, begin on 5 April 1754 and end on 31 July 1760.

Volume V, size 16 in. by 10 in., contains the Marriages from August 1760 to July 1778. During the last ten years the entries are very irregularly made in regard to order of date.

Volume VI contains the Marriages to the end of 1811.

Volume VII contains those of the year 1812 only.

These transcripts from 1570 to 1618 were made by the Rev. S. Forster-Brown, now Vicar of Charlton, near Pewsey, and from 1618 to 1812 by the Rev. Edmund Nevill, Curate of St. Thomas'. They have been collated with the Registers by Mr. Nevill, and printed with the permission of the Rev. C. Lloyd Sanctuary, Vicar of St. Thomas'.

Marriages at Baverstock,

1559 to 1812.

NOTE.—The Registers of this parish are complete from the year 1559.
Volume I is entitled: "A Register Booke belonging to the p'ishe of "Baberstocke of all the Names of those that Have bene christened "married and buried since the year of our Lord God 1559", but the first marriage entry is dated 18 July 1561. This volume continued in use till 3 October 1715.
Volume II begins on 15 May 1714 with the repetition of the last three entries in Volume I, and ends on 25 February 1754. It also contains four pages of "Collections" in response to briefs during the years 1717 to 1737.
Volume III, made up of the usual printed forms then adopted, begins on 27 Oct. 1755, and ends with 1812.
These transcripts have been kindly made, and collated with the Registers, by the Rev. C. V. Goddard, Rector of Baverstock, and are printed with his permission.

Marriages at Norton,

1663 to 1812.

NOTE.—The earliest existing Register in this parish begins on 12 June 1663, and is marked A. The last Marriage entry is dated 22 June 1735.

The next Volume, B, cannot be found—see note inserted at the end of the transcript of Volume A. The number of Marriages in the missing volume would, however, in all probability be small, as the gap between A and C is only fourteen years.

Volume C, which begins on 30 April 1749, is made up of the ordinary forms for the entry of Banns and Marriages.

Owing to the infrequency of the Marriages it has not been possible to insert the double dates when the ecclesiastical and civil years overlap, the sequence not being close enough to determine the years with safety. The year given is consequently that given in the Register; it is presumably the ecclesiastical year, but cases are sometimes met with when the civil year is used in the Registers.

These transcripts have been made by the Rev. H. L. Warneford, Vicar of Norton, and they are printed with his kind permission.

Marriages at Colerne,

ADDITIONAL.

NOTE.—While the Marriages printed in Volume IV were going through the Press, the following were found recorded on three loose parchment leaves inside the cover of the earliest Register remaining at Colerne. Two of these sheets are fastened together, and headed "Heare followeth the names of all that have been married in the p'ish of Collerne since Anno Domini 1560, wth the day and yere they were wedded." At the bottom of the second are some entries of Baptisms in 1628.

On the third sheet are entries (in inferior writing) presumably of Marriages; the names and dates only are given, and there is no heading. Part of this sheet is much worn, and only with difficulty legible; part is quite illegible.
